Saltbush Contracting Pty Ltd is a privately owned Earthmoving & Bulk Haulage business providing a diverse range of Civil Services, Bulk Haulage Capabilities and Plant & Equipment Hire to major industries and mining operations throughout Western Australia

About Us

As an experienced earthmoving contractor, Saltbush Contracting has completed projects for Mining, Construction, Exploration & Agricultural clients in all aspects of their operations. With a professional and capable team, Saltbush Contracting aims to deliver projects to meet client requirements with an impeccable safety record.

Saltbush's principal objectives are:

- Safety – To provide a safe and healthy working environment for all employees, subcontractors, our client's workforce and the broader public who from time to time enter into such working environment.
- Quality – To make certain of our client's satisfaction by delivering outcomes that meet or exceed their expectations.
- Environment – To show the utmost respect towards environmental issues with a key focus on ensuring least impact best practices.
- Culture – To provide a working environment that facilitates the development, wellbeing and positive morale of all employees and subcontractors.
- Continuous Improvement – To continually improve our practices and procedures by audit and review

Saltbush Contracting undertakes projects utilizing our own long-term workforce and diverse fleet of plant and equipment. This enables us to deploy our resources productively, effectively and efficiently whilst retaining flexibility to meet fluctuating requirements for planned and unplanned works.

OUR CAPABILITIES

Bulk Haulage & Transport

Our extensive truck and trailer fleet provides transport solutions to meet industry material handling requirements. With a tailored approach, we ensure the reliable delivery of ore to the port, mine or mill.

With freight depot yards and workshops located in all of our 'Hubs' we build custom tailored freight and transport solutions for your business. Using the latest technology in vehicle tracking and fatigue management systems we can monitor location, speed, driving hours and other vital information to ensure transport safety always.

To meet the full range of diverse client needs we maintain a large fleet of vehicles that offer complete supply-chain solutions.

Our haulage and loading vehicle fleet includes:

- Front end loaders of 4t – 20t bucket capacity fitted with latest technology onboard weighing systems;
- Body trucks of 8t – 45t capacity;
- Side tipping Bulk Haulage combinations with capacities from 22t – 240t;
- Skel trailer Bulk Haulage combinations
- End Tipping Bulk Haulage Combinations
- Water trucks of 4,000lt – 90,000lt capacity;
- Franna Cranes & Forklift Options;
- Single and road train general trailers;
- 50-100t Low Loader Floats

Earthmoving & Mine Site Services

With a strong track record in regional and remote development work, we have the capacity and experience to deliver comprehensive service solutions for mining and mine infrastructure.

Saltbush Contracting specialises in supporting new mining infrastructure developments and has completed major mining support projects. Services provided include;

- ROM Pad Management
- Load & Haul
- Crushing & Screening
- Bulk Material Handling
- Earthmoving and Construction Civil

Our large machinery fleets give us the ability to provide reliable, cost-effective solutions that meet customer expectations. We partner with world-leading mining services corporations and offer complete supply chain management.

Plant & Equipment Hire

Saltbush Contracting supports its projects with a modern and carefully maintained fleet of plant and equipment and also provides a range of mechanical services including component overhaul, machinery compliance and preventative maintenance.

We have a diverse fleet available for either wet or dry hire so do not hesitate to contact us for all your short or long-term needs. All equipment is maintained to a very high standard and we offer competitive rates based on the type of work, duration of the job and the hours to be worked per day, week or month.
